CEMA B IDLERS - 2400 SERIES

Luff Industries’ patented polymer endcap design offers the ultimate in strength, durability and sealing performance.

Full 2 Year Warranty
In stock at all locations

Polymer endcaps provide an improved sealing arrangement, protecting the bearing from various environmental contaminants including dust and moisture.

- Available in 4” and 5” diameters
- Entire shell is dipped before assembly to prevent corrosion from inside
- Frames equipped with lock-down tabs
- Idler assemblies meet all CEMA standard dimensions
  - Rollers are built with a 20mm shaft and bearing, instead of the 17mm industry standard
  - Very low roller runout (TIR)
  - Impact Idlers available
