URETHANE GUIDE ROLLERS

The Solution to Your Belt Tracking Problems

Made of a composite urethane material Luff guide rollers provide improved strength, durability and corrosion resistance over conventional steel guide rollers.

- Reduce the chance of severe belt damage from sharp edges caused by roller wear.
- The hourglass shape offers the ultimate belt control by preventing the belt from climbing up and over the guide roller.
- Full length threading for unlimited height adjustment.
- Electroplated shafts for rust resistance
- Easy installation (perpendicular to belt)
- 6UGR-E are built specifically for heavy belt conveyor applications including mining, ship loading and aggregate.

Full 2 Year Warranty

4UGR
Contains two 6205 sealed ball bearings with a Luff Triple Labyrinth Seal for added protection.
25 mm shaft machined & threaded to 3/4” UNC.

6UGR-E
Contains two 6306 2RS C3 sealed ball bearings and Luff’s patented Triple Labyrinth sealing arrangement.
30mm shaft machined & threaded to 1 1/8” UNC.

5UGR/6UGR Stub
Urethane sidewall belt stub roller available for corrugated side wall belt applications.
