Luff Industries’ patented polymer endcap design offers the ultimate in strength, durability and sealing performance.

Full 2 Year Warranty

- Available in 4", 5" & 6" diameters
- Entire shell is dipped before assembly to prevent corrosion from inside
- Idlers meet all CEMA standard dimensions
- Very low roller runout (TIR)

Polymer endcaps provide an improved sealing arrangement, protecting the bearing from various environmental contaminants including dust and moisture.

High Moisture Seal Available
